LOCATION & ASSIGNMENT OF CREWS

Fork Complex – CA-SHT-002067

STATE: California

ICP is located in Hayfork, CA, approximately 65 miles west of Redding, CA. The Fork Complex is comprised of more than 40 lightning-caused fires on the Hayfork Ranger District of the Shasta-Trinity National Forest. California Type 1 IMT Team #4 (IC Rocky Oplinger) is managing the Fork Complex in unified command with CalFire. ICP is at the Hayfork Fairgrounds with base camp at Hayfork High School. All three crews assigned to this fire complex worked productively and safely yesterday. Today's assignments are very similar.

PR-MA#3 and FL-ST#2 are again assigned to Division O, the Peak Fire, establishing indirect control line and improving and patrolling existing containment lines.

GA-MA#1 is assigned to Division J, the Rail Fire, establishing, improving and patrolling containment lines.

Crew#	Crew	Fire	Acres	Division	START Shift	END Shift	Cell Service
C-24	PR-MA#3	Fork	13,333	O	ICP-Hayfork	ICP-Hayfork	Spotty
C-29	FL-ST#2	Fork	13,333	O	ICP-Hayfork	ICP-Hayfork	Spotty
C-30	GA-MA#1	Fork	13,333	J	ICP-Hayfork	ICP-Hayfork	Spotty

Deerhorn #2 – CA-HIA-15-00181

STATE: California

Acres changed due to more accurate mapping. Yesterday the GA-ST#2 and FL-MA#1 crews continued to make good progress on the Deerhorn Fire doing mop-up and securing lines. Today, GA-ST#2 will remain working on Division A. The crew will continue to identify snag trees for cutting and mop-up within 200 feet of division line. FL-MA#1 will remain working in Division Z and will continue to mop-up within 200 feet of the line and will continue to identify snag trees for cutting. After end of shift today, the crews will be released from the incident with the plan to be re-assigned to the River Complex.

Crew#	Crew	Fire	Acres	Division	START Shift	END Shift	Cell Service
C-8	GA-ST#2	Deerhorn #2	125	A	ICP Hoopa	River Complex	Y
C-9	FL-MA#1	Deerhorn #2	125	Z	ICP Hoopa	River Complex	Y

MORALE OF CREWS:

Very good. Both GA-ST#2 and FL-MA#1 are excited about being reassigned to the River Complex.

INJURIES:

None.

IARR DAILY CREW REPORT

Tampa Module #2

PR-MA#3, FL-ST#2, and GA-MA#1 continuing making good progress on their assignments yesterday on the Fork Complex. The smoke inversion layer lifted late in the afternoon resulting in very active fire behavior. Today is predicted to be hotter (85-95 degrees) and drier (13-17% relative humidity) than yesterday, with a slight (20%) possibility of late afternoon thunderstorms. Crews have good camp accommodations at Hayfork High School. There is a public meeting in Hayfork tonight at 19:00 hours pdt, which will be streamed live online. Information including the "url" is on inciweb.nwcg.gov. The Fork Complex continues to be the second priority fire in the country, behind only the Rocky Fire, also in California.

The Deerhorn #2 Fire is being managed as a "stand alone" Type 3 incident located on the Hoopa Reservation and is not part of Vontilow's Type 1 IMT which is managing the River Complex comprised of four fires on the Shasta-Trinity NF. The River Complex continues to provide outstanding logistical support to our crews. Breakfast serving schedule was adjusted 30 minutes earlier to better support all the resources working on the Deerhorn #2 Fire. Both GA-ST#2 and FL-MA#1 will be released at end of shift today and plans are being made to have these two crews reassigned to the River Complex. IARR Belanger has been working with both the IC for the Deerhorn #2 and the IC and Operations for the River Complex to have these crews reassigned. The River Complex currently has outstanding resource orders for crews.
